PATHAN IMRAN SADIK

DevOps Engineer (Fresher / Intern)

+91 9960123250 | afridkhan9371@gmail.com | Vaijapur, Maharashtra, India

GitHub: github.com/imran5152

CAREER OBJECTIVE

BCA student (3rd year, 5th semester) focused on DevOps and cloud. Hands-on with CI/CD tooling, Docker and Kubernetes, and currently building AWS skills. Seeking a DevOps internship to automate build, test and deployment pipelines in real-world projects.

EDUCATION

Bachelor of Computer Applications (BCA) - 3rd Year, Semester 5 Expected 2027

Dr. Babasaheb Ambedkar Marathwada University | Vinayakrao Patil Mahavidyalaya, Vaijapur

TECHNICAL SKILLS

CI/CD & Build	Jenkins, Maven, SonarQube (code quality), Nexus (artifact repository), Apache Tomcat
Containers	Docker, Kubernetes (manifests, deployments)
Configuration Mgmt	Ansible
OS & Scripting	Linux CLI, Shell Scripting
Version Control	Git, GitHub

DEVOPS PROJECTS

Java-React-k8s - Three-Tier Application Deployment on Kubernetes

Tech Stack: Java, React, Docker, Kubernetes, Git, GitHub

- Deployed a three-tier College application (React frontend, Java backend and database tier) on Kubernetes. Backend: *college-app*, frontend: *college-frontend*.
- Wrote and maintained Kubernetes manifests in a dedicated *k8s/* directory, including the React deployment configuration.
- Managed the project on GitHub with incremental commits and configuration updates.

GitHub: github.com/imran5152/Java-React-k8s

CURRENTLY LEARNING

- **AWS foundation:** IAM, EC2, S3, VPC
- **AWS DevOps:** ECR, Elastic Load Balancing (ALB, NLB, GWLB, CLB), CloudWatch monitoring
- **Kubernetes on AWS:** Amazon EKS, plus Helm for packaging Kubernetes applications
- **AWS CI/CD:** CodeBuild, CodePipeline, CodeDeploy

ADDITIONAL

- Speaker at a college seminar on Education Equality, addressing 300+ students.
- Quick learner with a strong interest in automation, cloud and Linux.
