CAREER OBJECTIVE

Motivated BCA student with a strong foundation in full-stack web development, including React, Node.js, and basic DevOps practices. Seeking a web development internship to apply technical skills in real-world projects and grow as a full-stack developer.

EDUCATION

Bachelor of Computer Applications (BCA)
Dr. Babasaheb Ambedkar Marathwada University
Vinayakrao Patil Mahavidyalaya, Vaijapur
Graduation: 2nd Year (Pursuing) — Expected 2026

TECHNICAL SKILLS

Frontend	React.js, HTML5, CSS3, JavaScript, Tailwind CSS, Bootstrap, Material UI
Backend	Node.js, Express.js, PHP
Database	MongoDB, MySQL
Languages	JavaScript, Python, PHP
DevOps	Docker, Jenkins, Maven, Apache Tomcat, Ansible, SonarQube, Nexus
Tools	Git, GitHub, Shell Scripting, Linux CLI

ACADEMIC PROJECTS

1. ShopWave — E-Commerce Web Application

Tech Stack: React.js, Vite, React Router DOM, Context API, CSS3, GitHub, Render

Developed a fully responsive e-commerce web application with product listing, category filtering, search functionality, and a shopping cart with real-time quantity management. Implemented global state management using React Context API with localStorage persistence and client-side routing using React Router DOM. Deployed on Render cloud platform with GitHub CI/CD integration.

2. Netflix Clone — Streaming Platform

Tech Stack: HTML, CSS, JavaScript, Firebase Authentication, Firebase Firestore, GitHub

Developed a fully responsive Netflix-inspired streaming platform with interactive movie and show cards that display teaser trailers on hover. Implemented a complete user authentication system including Login and Register functionality using Firebase Authentication, with Firebase Firestore as the real-time backend database for storing user data.

GitHub: https://github.com/imran5152/Netflix-clone.git

3. Car Showroom Website

Tech Stack: HTML, CSS, JavaScript

Created a responsive car showroom website frontend with image and file validation, animations, and interactive UI. Included pages like car designs, billing, about, etc.

GitHub: https://github.com/Kaveri-tech/Car-UI

4. Gym Management System (Group Project)

Tech Stack: HTML, CSS, Bootstrap, JavaScript, PHP, MySQL

Developed frontend pages and implemented PHP CRUD operations. Collaborated in a team to build a gym management system interface.

5. YouTube Clone

Tech Stack: HTML, CSS, JavaScript, Tailwind CSS, Bootstrap, React.js, Express.js

Built a clone of the YouTube interface featuring video content, sidebar, and navbar using APIs.

GitHub: https://github.com/Kaveri-tech/Youtube-clone

6. AI Resume Maker

Tech Stack: React.js, Node.js, MongoDB, Express.js, Tailwind CSS

Built a MERN stack resume builder web application. Implemented backend REST APIs with Node.js and Express, MongoDB for data storage, and a responsive Tailwind CSS UI.

POSITION OF RESPONSIBILITY

- Participated as a speaker in a college seminar on Education Equality.
- Addressed an audience of over 300 students in English, highlighting the importance of merit-based opportunities.

ACHIEVEMENTS & HOBBIES

- Won prizes in annual art competitions and received certificates of excellence in drawing and painting.
- Won prizes in singing competitions.
- Hobbies: Gaming, Riding, Reading, and Coding — passionate about building creative web applications.
- Enjoy singing various genres of music, including classical and contemporary.

ADDITIONAL DETAILS

- Strong understanding of web development fundamentals and modern JavaScript ecosystem.
- Quick learner with a problem-solving mindset and attention to detail.
- Passionate about building scalable, efficient, and user-friendly applications.
- Familiar with Agile workflows and collaborative development using Git & GitHub.
